

KARBONHEX[®]
UNKOMPROMISINGLY KOOL

The Essential Range Of High Performance Hand Protection

2020

KARBONHEX is an advanced, innovative range of ergonomic multi-functional hand protection that was originally conceptualized, designed and styled specifically for professionals working in the most challenging situations, conditions and hazardous environments.

The series as now been updated to offer a more comprehensive selection, ranging from super lightweight high dexterity pinpoint precision handling gloves to super rugged gloves that feature all round anti impact, extreme durability and cut resistance options. Constructed using only high quality and/or state-of-the-art materials and technologies, combined with creative unique custom styling - hand protection as never been so UNKOMPROMISINGLY KOOL...

EN 388 EN 388 : 2016
Protective Gloves Against Mechanical Risks

Specifies requirements, test methods, marking and information to be supplied for protective gloves against the mechanical risks of abrasion, blade cut, tear, puncture and, if applicable, impact.

Requirements / Test Methods

Abrasion Resistance: Levels 1-4
Calculated on cycles required for break-through

Cut Resistance (Coupe): Levels 1-5
Calculated on cycles required for cut-through

Tear Resistance: Levels 1-4
Calculated on force (Newtons) applied to tear

Puncture Resistance: Levels 1-4
Calculated on force required for a stylus to puncture

Cut Resistance (ISO, Levels A-F): Levels 1-5
Calculated on load/cycles required for cut-through

Impact Resistance: Levels 1-P (Pass)
Impact 5J applied –mean transmitted force ≤ 7kN

EN 388

1234EP

1 2 3 4 E P

INDIKATOR

A practical and common sense, Low – High bar level reference only guide that simply indicates the gloves general performance levels on essential characteristics. These include Durability, Cut Resistance and Dexterity and certain product where relevant also includes Impact Protection to the back of hand/fingers.

*For specific CE & ANSI levels refer to the relevant pictograms/scores and test certification – this is for guidance only.

EN511

EN511 : 2006
Protective Gloves Against Cold

EN 511

321

The European standard assess the performance of a glove's protection for the hands against cold hazards which has several tests including convective cold, contact cold, water penetration and flexibility behaviour.

Requirements / Test Methods

Convective Cold: Levels 1-4
Thermal insulation calculated on energy to keep heated

Contact Cold: Levels 1-4
Thermal resistance calculated by temperature drop

Water Penetration: Levels 0-1/Pass
Immersed in water, integrity checked after flexing

3 2 1

TOUCHSCREEN

Built-in touchscreen compatibility. Operate touchscreen panels on machinery and equipment on the assembly line or construction site along with other portable electronic touch devices. Works with almost all screens.

Cut Performance Standards

EN 388 Clause 6.2

COUPE TEST

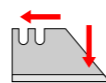

A counter rotating blade under a 5N force tracks back and forth over the palm material until cut-through or 60 cycles then a 'blade cut index value' is calculated from the control material.

ISO 13997

TDM TEST

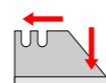

A straight blade is drawn across the palm material and measures the contact load applied (Newtons) to make a cut-through over a 20mm stroke length.

ANSI/ISEA 105-2016

TDM TEST

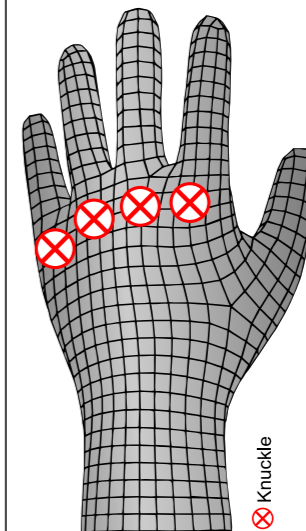

A straight blade is drawn across the palm material under three different weight loads (grams) to cut-through a 20mm length, final gram rating calculated on average.

Impact Performance Standards

EN 388 IMPACT TEST

XACT Precision Handling

Close-fitting and lightweight seamless precision handling glove with a Foam Nitrile palm dipped coating that excels in oily and slippery handling conditions.

3121X

Foam Nitrile palm coating delivers excellent grip and protection in oily & wet applications.

Close-fitting seamless 13g knitted polyester shell provides excellent fit and comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

XACT Precision Handling

Close-fitting and lightweight seamless precision handling glove with a Nitrile palm dipped coating for general handling, suitable for oil-based and wet applications.

4121X

Resilient Nitrile palm coating delivers excellent liquid, oil & grease resistance and grip.

Close-fitting seamless 13g knitted polyester shell provides excellent fit and comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

XACT Precision Handling

Superior fit, ultra-lightweight seamless precision handling glove with a textured granular Nitrile palm dipped coating that offers performance grip and precise handling of small wet / dry / oily components.

Elasticized knit wrist cuff for a comfortable and secure fit.

Granular (sandy) foam Nitrile palm coating provides maximum grip in wet and oily handling conditions.

Premium quality seamless 15g knitted Nylodex shell.

4121X

XACT Precision Handling

Close-fitting and lightweight seamless precision handling glove with a textured granular Nitrile palm dipped coating that offers performance grip in wet & oily handling applications.

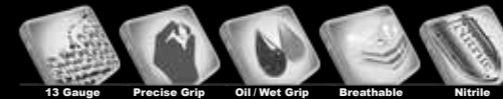

Elasticized knit wrist cuff for a comfortable and secure fit.

Granular (sandy) foam Nitrile palm coating provides maximum grip in wet and oily handling conditions.

Close-fitting seamless 13g knitted polyester shell provides excellent fit and comfort.

4121X

XACT Precision Handling

Liquid resistant superior fit, ultra-lightweight seamless precision handling glove with a dual-layered Nitrile dipped coating that offers performance grip and precise handling of small components in excessively wet, oily and slippery conditions.

Granular (sandy) foam Nitrile palm coating provides maximum precision grip in wet and oily handling conditions.

Smooth Nitrile base layer full dip coating provides excellent liquid, oil and grease resistance.

Premium quality seamless 15g knitted Nylodex shell provides exceptional fit and all-day comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

4131X

XACT Precision Handling

Light dorsal impact and liquid-resistant superior fit seamless precision handling glove with a dual-layered Nitrile dipped coating that offers performance grip and precise handling of small components in excessively wet, oily and slippery conditions.

Granular (sandy) foam Nitrile palm coating provides maximum precision grip in wet and oily handling conditions.

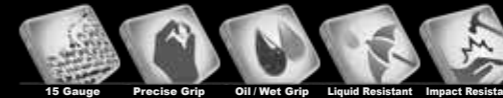

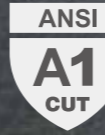

Low profile dorsal impact protection to fingers & knuckles, remains flexible and dextrous due to its innovative Integrated Expansion Slots & Full Flex Points.

Smooth Nitrile base layer full dip coating provides excellent liquid, oil and grease resistance.

Premium quality seamless 15g knitted Nylodex shell provides exceptional fit and all-day comfort.

4131X

XACT Precision Handling

Skin fit, ultra flyweight seamless precision handling glove with a Nitrile dipped palm coating that offers performance grip, extreme dexterity and precise handling of small components in wet, oily and slippery conditions.

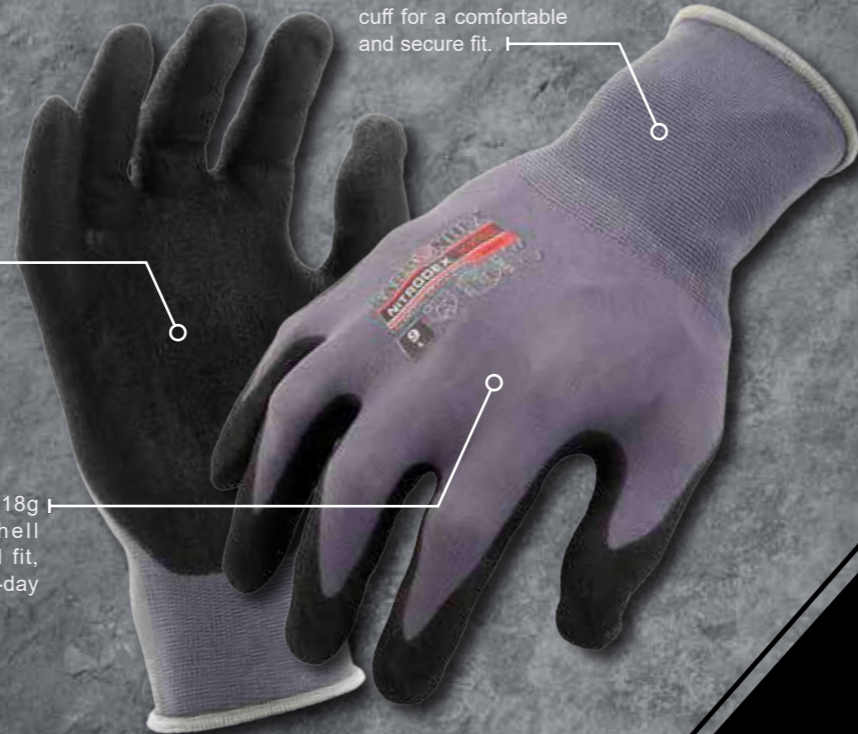

4131X

Granular (sandy) foam Nitrile palm coating provides ultimate precise oil & wet grip handling.

Superfine seamless 18g knitted Nylodex shell provides exceptional fit, feel, flexibility and all-day comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

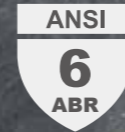

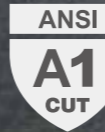

XACT Precision Handling

Liquid resistant skin fit, ultra flyweight seamless precision handling glove with a dual-layered Nitrile dipped coating that offers performance grip, extreme dexterity and precise handling of small components in wet, oily and slippery conditions.

4131X

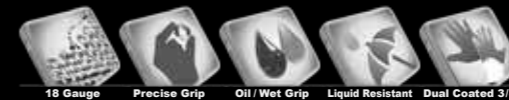

Granular (sandy) foam Nitrile palm coating provides ultimate precise oil & wet grip handling.

Smooth Nitrile base layer knuckle 3/4 dip coating provides excellent liquid, oil and grease resistance.

Elasticized knit wrist cuff for a comfortable and secure fit.

Superfine seamless 18g knitted Nylodex shell provides exceptional fit, feel, flexibility and all-day comfort.

XACT Precision Handling

Superior fit, ultra-lightweight, breathable seamless precision handling glove with a hybrid PU / Nitrile palm dipped coating that literally forms to your hand and offers phenomenal grip for precise handling of small wet / dry and light oily components.

4131X

Fusion PU / Nitrile palm coating offers secure wet, dry and light oily grip.

Premium quality, breathable seamless 15g knitted NyloDEX shell provides exceptional form, fit and feel for all-day comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

XACT Precision Handling

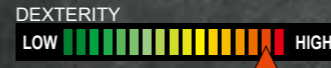

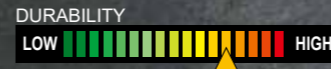

Superior fit, ultra-lightweight, breathable seamless precision handling glove with a reinforced thumb crotch zone and a hybrid PU / Nitrile palm dipped coating that literally forms to your hand and offers phenomenal grip for precise handling of small wet / dry and light oily components.

4131X

Fusion PU / Nitrile palm coating offers secure wet, dry and light oily grip.

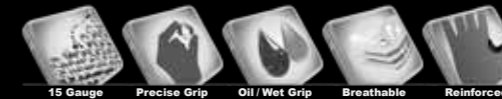

Premium quality, breathable seamless 15g knitted NyloDEX shell provides exceptional form, fit and feel for all-day comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

Nitrile reinforced patch to thumb crotch area for glove longevity and extra strength.

XACT Precision Handling

Breathable superior fit, ultra-lightweight seamless precision handling glove with a superfine textured Nitrile palm dipped coating that channels away liquids offering exceptional grip for precise handling of small wet / dry / oily components.

4131X

MikroFoam PU / Nitrile palm coating offers secure wet, dry and light oily grip.

Premium quality, breathable seamless 15g knitted NyloDEX shell provides exceptional form, fit and feel for all-day comfort.

Elasticized knit wrist cuff for a comfortable and secure fit.

XACT Precision Handling

Breathable superior fit, ultra-lightweight seamless precision handling glove with a reinforced thumb crotch zone and a superfine textured Nitrile palm dipped coating that channels away liquids offering exceptional grip for precise handling of small wet / dry / oily components.

4131X

MikroFoam PU / Nitrile palm coating offers secure wet, dry and light oily grip.

Premium quality, breathable seamless 15g knitted NyloDEX shell provides exceptional form, fit and feel for all-day comfort.
