

VARIFLEX

IMPACT PROTECTION

VARIFLEX offers exceptional impact protection with comprehensive full hand coverage while remaining flexible and dextrous due to its innovative design and patented key features:

IES

Integrated Expansion Slots™ – Three strategically positioned expansion slots allow the knuckle points to move freely when the hand is clenched **WITHOUT** exposing the knuckles to impacts like inferior designs.

FTP

Full Thumb Protection™ – Crucial protection to entire thumb & knuckle joints, features include:
 (a) Three-way Integrated Expansion Slot on thumb interphalangeal joint to release pressure and improve comfort.
 (b) Full Flex Point at metacarpo joint for increased flexibility.

FFP

Full Flex Points™ – Channels engineered into key areas that contour and flex, mimicking every finger and hand movement providing exceptional flexibility, comfort and reduced hand fatigue.

Glove shell/coating and Variflex impact guard combinations are fully customizable, bespoke private branding (design and development) available subject to volume.

No	Cut	Impact	Grip	Features
1	A5	ANSI 2	Nitrile	High Visibility
2	A5	ANSI 2	Nitrile	Velcro Closure
3	A3	ANSI 2	Latex	Winter Thermal
4	A1	ANSI 1	Nitrile	Liquid Resistant
