

STEALTH NEXGEN

2021

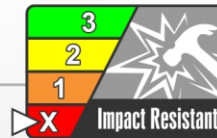

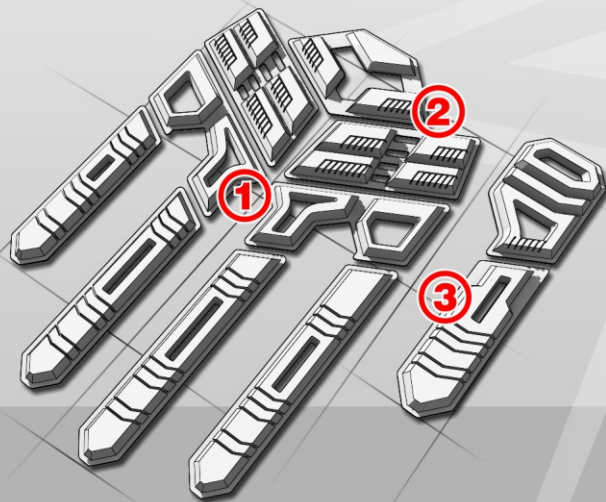

iNPAx

STEALTH NexGen Alpha - ultra lightweight, low profile, flexible bonded anti impact guard designed to protect from light impacts.

Characteristics:

- ① Multi component cavity knuckle guard zones allow the glove to stretch and flex naturally mimicking hand movements providing unparalleled comfort & flexibility.
- ② Supplemental tapered lower guard zone provides extended protection to metacarpal and carpal areas.
- ③ Inclusive thumb and finger guards with integral full flex points/slots that provide unrestricted flexibility.

BONDED

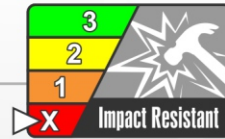

EN388 Impact Resistant	
X	Level 1 / P
	Mean $\leq 7\text{kN}$
	All $< 9\text{kN}$

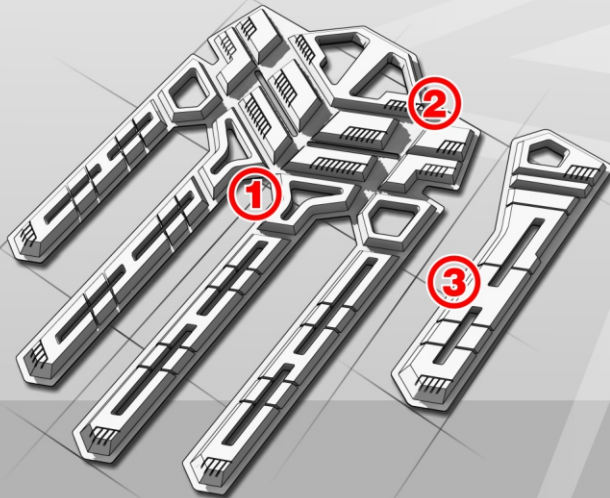

STEALTH NexGen Omega - lightweight, low profile, flexible bonded anti impact guard designed to protect from light impacts.

Characteristics:

- ① Integrated cavity knuckle guard zones reduce weight - raised segments provide extra protection to the most vulnerable points of contact.
- ② Integrated lower guard zone with cavity provides extended protection to metacarpal area.
- ③ Robust thumb and finger guards with integral full flex points and cavity base points provide flexible durability.

BONDED

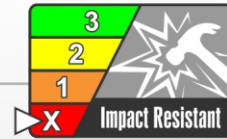

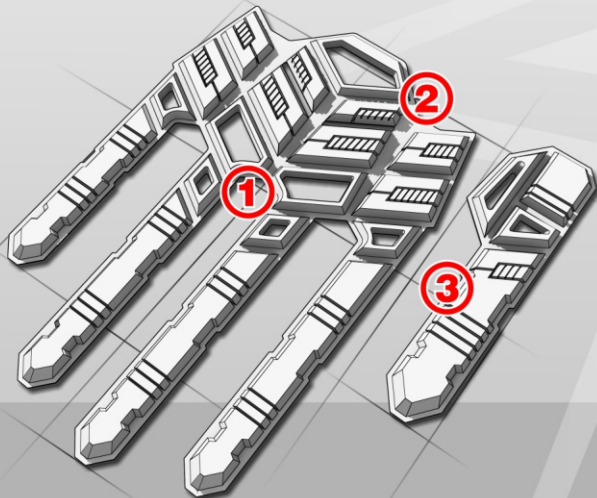

EN388 Impact Resistant	
X	Level 1 / P
	Mean $\leq 7\text{kN}$
	All $< 9\text{kN}$

ANSI/ISEA 138-IMPACT	
IMP X	

STEALTH NexGen Delta - super lightweight, low profile, flexible bonded anti impact guard designed to protect from light impacts.

Characteristics:

- ① Integrated cavity knuckle guard zones reduce weight - raised segments provide extra protection to the most vulnerable points of contact.
- ② Integrated dual cavity lower guard zone provides extended protection to metacarpal area.
- ③ Inclusive thumb and finger guards with integral full flex points and channeling that provide lighter, unrestricted flexibility.

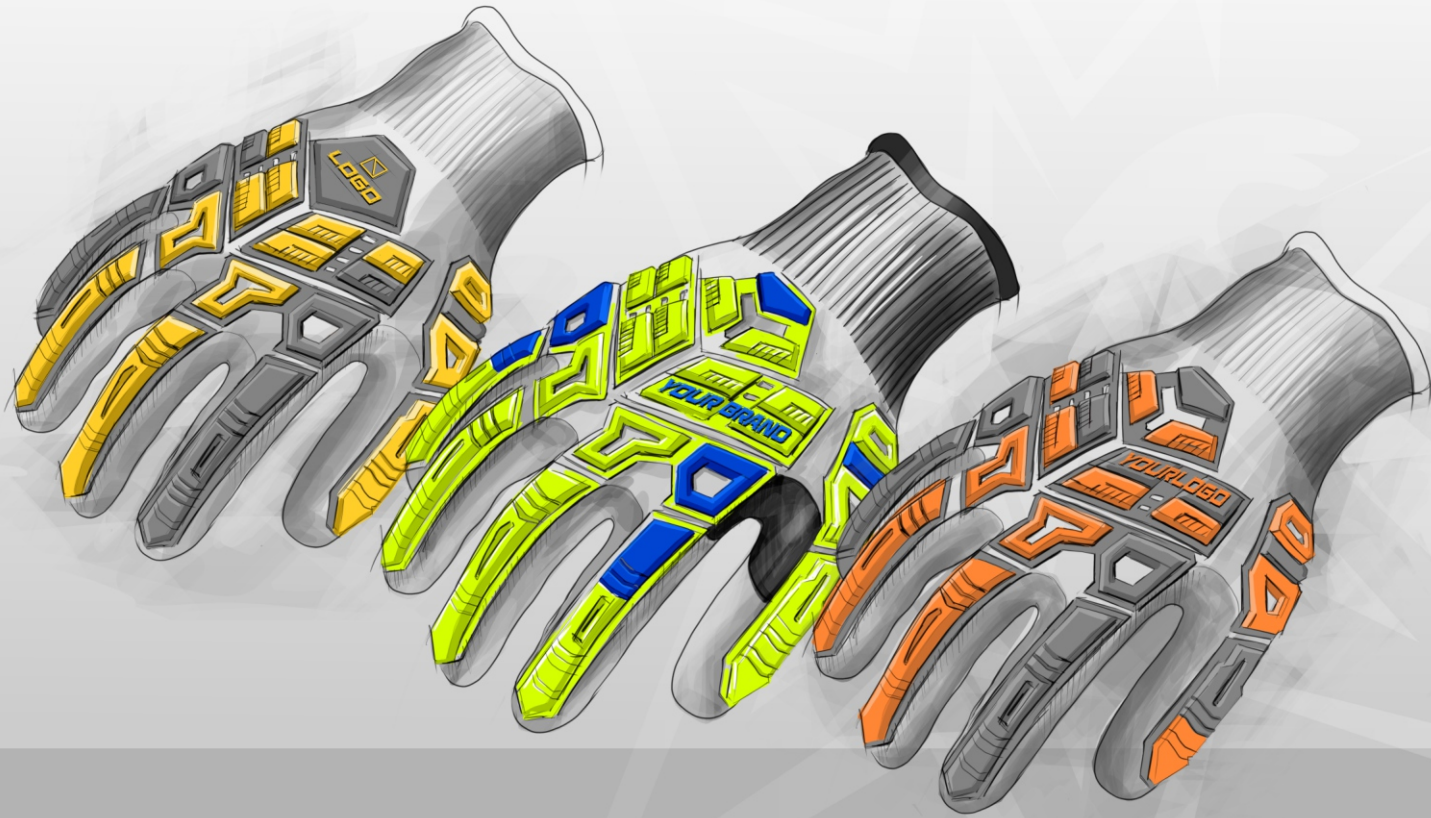

BONDED

EN388 Impact Resistant	
X	Level 1 / P
	Mean $\leq 7\text{kN}$
	All $< 9\text{kN}$

ANSI/ISEA 138-IMPACT
